

UPDATE

Cancellation Relief/Risk Management/Underwriting

- Florida insurance companies are working toward temporary suspension of policy cancellation due to non-payment of premium.
- In response to emerging insurance exposures attributable to the COVID-19 virus, topical on-line Risk Management services are being developed by both W3 and insurance carriers. Risk managers are now deeply immersed in the study and understanding of new exposures caused by pandemic events, which were not contemplated fully in the past.
- In general, insurance transactions are being processed effectively and often without delay by electronic delivery of renewal quotes and endorsements. Remember to update your renewal rating information to reflect future payroll and sales plans and expectations.

Should you have any questions concerning your account details, please contact your agent.
